Summary

I am a skilled web developer specializing in front-end development with expertise in HTML, CSS, JavaScript, and WordPress. And I have a solid foundation for transitioning into UI/UX design. With a strong background in logic, databases, interactions, and user authentication, I am capable of creating compelling and user-friendly websites. Seeking a challenging position as a software engineer to apply my technical expertise, problem-solving skills, and passion for innovation. Committed to developing cutting-edge software solutions that enhance efficiency, user experience, and positively impact people's lives. Eager to work collaboratively, learn emerging technologies, and grow professionally.
